

How-Do-We-Do-That?

1970AM

After contacting the Service Person in a service truck for the Bobcat Bulldozer. He told me that all Bobcats' are keyed alike. Even a lot of Case products use the same key.

Spacings and Depth are measured from the Factory pre-cut key.

Spacings:

1. .250"
2. .345"
3. .440"
4. .535"

Depths:

1. .153"
2. .153"
3. .178"
4. .153"
