

SFIC, K-I-K, Padlocks are available from MX. Ask your supplier for more information. In the Toronto Area contact Edwards Builders Hardware.

**Editors Note.**

Locksmith, could use the following method to protect the security of their customers by using a code card system.

In our shop we have designed a Code to Cuts Conversion Chart. In the same principle as used by ABLOY.

We have one we are using for Everest and now for MX. Each Card has its own picture of the key of the system used.

In the same way we designed our own Double Code Cards, with on the front the info of the type of system and/or key ways. Those cards are designed on our PC and printed using our PC Printer. In the same way you can make your own business cards. Only before stripping the cards in two's we print on the back, of each card, our company information for our customer.
